

Agricultural Water Pump for Irrigation

This water pump is designed for agricultural drainage and irrigation applications. Its durable cast iron construction and multi-groove pulley system ensure efficient power transfer.

Product Overview

High-Performance Agricultural Irrigation Pump

This heavy-duty water pump is engineered specifically for demanding agricultural drainage and irrigation applications. Constructed with durable cast iron, it ensures long-term operational longevity even in harsh environments. The integrated multi-groove pulley system optimizes power transfer efficiency, while the versatile port configuration allows for seamless plumbing integration.

Technical Specifications

Build Material	Cast Iron
Drive Mechanism	Multi-groove pulley system
Configuration	Multi-port design

Applications

Primary Uses	Agricultural Irrigation, Water Drainage, Heavy-duty Pumping
