

Agricultural Water Pump for Irrigation

This high-performance water pump is designed for agricultural drainage and irrigation applications. The pump is engineered for efficient water transfer and features durable construction for long-lasting reliability in demanding environments.

Product Overview

High-Performance Agricultural Irrigation Pump

This robust water pump is specifically engineered for efficient agricultural drainage and irrigation applications. Designed for long-lasting reliability, it provides optimal water transfer capabilities even in demanding outdoor environments. Its durable construction ensures it meets the critical water management needs required for high-yield agricultural productivity.

Performance Metrics

Key Performance Indicators

2900 r/min

Rotation Speed

15 kw

Rated Power

Technical Specifications

Operational Data

Parameter	Unit
Flow Rate	m3/h
Head	m
Suction Lift	m
Weight	kg

Application Compatibility

Agricultural Drainage, Irrigation Systems, Water Management
