

Agricultural Water Pump for Irrigation

This water pump is designed for agricultural drainage and irrigation applications. It features robust construction for durability and efficient water transfer within irrigation systems.

Product Overview

High-Performance Agricultural Water Pump

This water pump is specifically engineered for demanding agricultural environments, offering superior efficiency for both drainage and irrigation tasks. Its robust construction ensures long-term durability and reliable performance in the field. Designed for seamless integration with C104 systems, it provides a versatile solution for modern farming operations.

Technical Specifications

Application Fields

- Agricultural Irrigation
- Drainage Systems
- Water Transfer

Build Quality

Robust Construction • High Durability

System Compatibility

C104 Systems
