

Agricultural Wheel Tractor for Plowing and Tilling

This compact wheel tractor is designed for a variety of agricultural tasks. It is suitable for plowing, tilling, planting, and other farm operations, and is equipped with durable tires for optimal traction and stability on diverse terrains.

Product Overview

Versatile Agricultural Solution

This compact wheel tractor is engineered for high-performance agricultural tasks, including efficient plowing, tilling, and planting. Built with a robust engine and a sturdy chassis, it provides the reliability needed for demanding farm operations. The unit features operator-friendly controls and durable tires designed to maintain optimal traction and stability across a wide variety of terrain types.
