

Agriculture Drainage and Irrigation Pump

This agriculture pump is designed for drainage and irrigation purposes. It features a robust engine and durable construction for reliable water transfer.

Product Overview

High-Performance Agriculture Pump

This agriculture pump is specifically engineered for efficient drainage and irrigation tasks. Featuring a robust engine and durable construction, it is built to provide reliable water transfer in demanding agricultural environments. It is an ideal solution for operations requiring consistent and effective water management.

Technical Specifications

Power

20 HP

Power Class

Model

DPC20-A

Primary Applications

Agricultural Irrigation, Field Drainage, Water Management
