

Air Conditioner Housing Parts

These are replacement housing parts for indoor air conditioning units. The set includes the front panel with a curved design and a rectangular top cover.

Product Overview

Air Conditioner Housing Components

This set of high-quality housing parts is designed for indoor air conditioning units, offering a seamless fit and clean aesthetic. The assembly includes a curved front panel with a distinct dark blue accent strip, a durable top cover with a textured finish, and adjustable air vent slats. These components provide a professional-grade replacement or finishing solution for HVAC maintenance and assembly projects.
