

Air Conditioner Replacement Motor

This is a replacement motor for an air conditioner unit. It features a robust metal housing with a gold-colored finish.

Product Overview

High-Performance AC Replacement Motor

This air conditioner replacement motor is engineered for durability and reliable performance in residential or commercial cooling systems. Featuring a robust metal housing with a specialized gold-colored finish, it is designed to withstand demanding operational environments. The integrated rubber mounts effectively dampen vibration, ensuring quiet operation and extending the lifespan of the unit.

Design & Construction

Vibration Control

Rubber Dampening Mounts • Low Noise Design

Housing Material

Robust metal with gold-colored finish

Mechanical Specifications

Shaft Configuration

Central shaft with threading for fan blade attachment

Manufacturing Information

Country of Origin

China

Production Code

020117
