Product Overview

Product Show

High-Performance Air Disc Brake Caliper

This total new air disc brake caliper assembly is engineered for heavy-duty applications in trucks, buses, and trailers. Manufactured to OEM quality standards, it features robust steel construction and all core parts are produced in-house to ensure reliable braking efficiency and safety. The assembly is designed for optimal heat dissipation and consistent friction, making it a dependable choice for demanding commercial vehicle environments.

Technical Specifications

Material

Steel

OEM Number

40225016

Vehicle Application

Truck, Bus, Trailer

Model Series

Pan22

Quality & Compliance

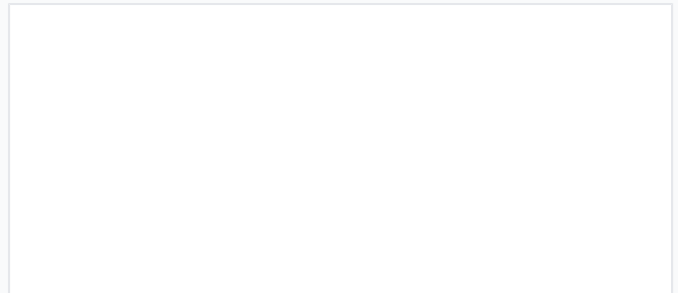

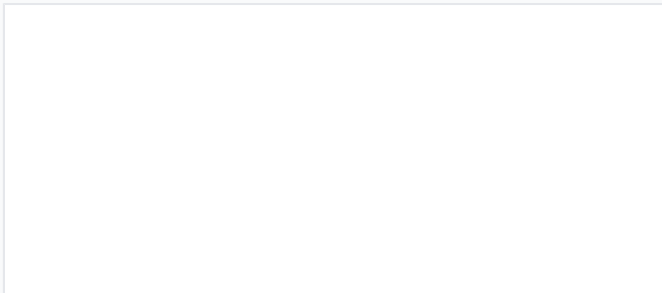

Certification

IATF16949 • ISO/TS16949:2009

Quality Standards

OEM Quality, European Quality

Maintenance & Components

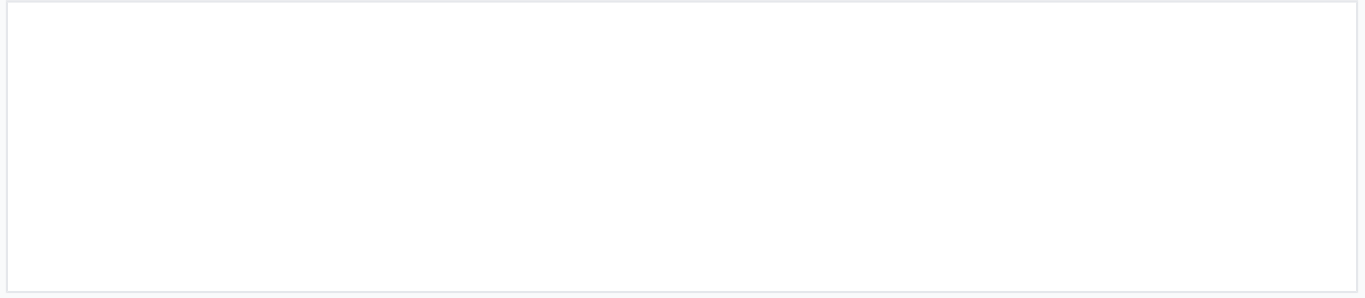

Repair Kit Components

- Guide pins
- Bushings
- Piston boots
- Piston seals
- Wear pads
- Retaining rings
- Clamps
- Springs

Assembly Features

- Caliper housing
- Brake pads
- Actuation mechanism
- Mounting brackets

Logistics
