Overview

Product Show

High-Performance Air Disc Brake Caliper

This single-piston air disc brake caliper is engineered specifically for heavy-duty commercial vehicles, including trucks, buses, and trailers. Constructed from high-grade steel, it ensures robust durability and reliable stopping power under demanding operating conditions. The design focuses on optimal heat dissipation to minimize brake fade and extend the service life of both the caliper and brake pads.

Technical Specifications

Material

Steel

OEM Number

K000935

Model Series

PAN22

Piston Configuration

Single-piston

Applications

Compatible Vehicles

Truck, Bus, Trailer, Commercial Vehicles

Quality & Compliance

Certifications

IATF16949, ISO/TS16949:2009

Repair & Maintenance

Repair Kit Components

- Piston
- Guide pins
- Bushings
- Seals & Sealing rings
- Springs
- Rubber bellows
- Clamps
- Mounting hardware

Comprehensive Serviceability

The available repair kits are designed to European quality standards, providing all essential hardware for a complete overhaul. Precision-engineered components ensure a direct fit and reliable sealing, restoring optimal braking performance and safety for worldwide service applications.

Logistics

Shipping & Packaging

- Secure cardboard box packaging
- Palletized and wrapped for stability
- Container shipping (Cargo ship)
- Air freight (Express services)
