Product Overview

Advanced Air Multiplier Technology

This high-performance bladeless fan utilizes advanced air multiplier technology to deliver a smooth, continuous stream of air without the need for traditional, hazardous blades. Equipped with a powerful 110W copper motor, it provides efficient cooling with adjustable wind speeds and modes to suit any environment. The integrated digital display and touch-sensitive controls offer precise management of airflow, temperature, and oscillation, making it an ideal cooling solution for professional and residential spaces.

Performance Specifications

Motor Power

110 W

Rated Power

Wind Speed

9-10 m/s

Wind Modes

3 modes

Features & Functionality

Circulation Range

360°

Water Tank Capacity

3.5 L

Key Features

Digital Display, Anion Air Purification, Touch Controls, Low Noise Operation, Castors for Mobility
