

Air Purifier with Multi-Layer Filtration

This air purifier improves indoor air quality by removing dust, pollen, smoke, and other airborne particles. It features a multi-layer filtration system, including a pre-filter, a HEPA filter, and an activated carbon filter.

Product Overview

Professional Indoor Air Solution

This air purifier is designed to enhance indoor air quality in professional and residential settings by effectively removing dust, pollen, smoke, and other common airborne particles. Its elegant design ensures it blends into modern interiors, while the intuitive multi-layer filtration system provides comprehensive purification. The unit features simple operation and a digital display for real-time monitoring and control.
