Product Overview

High-Performance Air Suspension Compressor

This 12V air suspension compressor pump is engineered to deliver reliable and consistent air supply to vehicle suspension systems, ensuring optimal ride height and comfort. Designed to meet or exceed original equipment specifications, it serves as a robust direct-fit replacement for seamless integration. The unit features durable construction and an integrated air dryer to prevent moisture damage, effectively restoring suspension functionality and performance.

Technical Specifications

Model Number	1Z 0101
Compatible Part Numbers	220 320 0104, 211 320 0104, 2203200104, 2113200104, 415 403 303 0, 4154033030
Warranty	One year
Place of Origin	Guangzhou, China

Compatibility
