

Airport Luggage Cart

This airport luggage cart features full welded aluminum construction. It is designed for the convenient transport of personal belongings within airport terminals.

Overview

Durable Airport Luggage Solution

This airport luggage cart is engineered for the demanding environment of airport terminals and duty-free shopping areas. Built with a robust aluminum alloy frame, it offers a high load capacity while remaining lightweight for easy maneuverability. The design prioritizes durability and smooth operation, featuring high-precision ball-bearing casters and reinforced components to ensure reliable performance for travelers.

Physical Specifications

Load Capacity	80 kgs
Net Weight	12 kgs
Dimensions (L x W x H)	880 x 510 x 1050 mm

Construction & Materials

Frame Material	Aluminum alloy
Frame Tubing Diameter	1 inch
Handle Bar Material	Tubular stainless steel
Handle Supports	High quality polyamide

Mobility & Casters

Caster Diameter	125 mm
Caster Features	Swivel, TPU tread, High precision ball bearing
Caster Brackets	Reinforced polyamide
Front Bumper Material	Non-marking TPU
