

All-in-One Desktop Computer

This all-in-one desktop computer integrates the display, keyboard, and mouse into a single unit. It is suitable for use in office, home, and educational environments.

Overview

Compact All-in-One Computing Solution

This all-in-one desktop computer offers a streamlined, space-saving design perfect for office, home, or educational environments. Featuring a 17-inch widescreen LCD display and integrated components, it minimizes cable clutter while providing reliable performance for standard computing tasks. The system is built around the efficient Intel Atom dual-core processor, making it a practical choice for professional workspaces where desk real estate is at a premium.
