Overview

Professional All-in-One Steam Ironing System

This comprehensive steam ironing system combines innovation, aesthetics, and ease of use to streamline garment care. Featuring a high-pressure steam generator, an integrated ironing board with suction and blowing functions, and adjustable height settings, it is designed to cut ironing time in half. The system provides professional results with safety features like auto-off and temperature control suitable for a wide range of textiles.

Performance Metrics

Steam Performance

100 g/min

Power Specifications

- Maximum Power: 2150W
- Voltage: AC 220V-240V
- Frequency: 50/60Hz

Design & Dimensions

Physical Dimensions

Component	Dimensions
Main Board	120 x 40 cm
Sleeve Board	51.5 x 13.5 cm
Adjustable Height	73 - 98 cm
Carton Size	148.5 x 51 x 32.5 cm

Weight

- Net Weight: 20.5 KGS
- Gross Weight: 24.3 KGS

Features

Key Features

Auto-off Safety • Suction & Blowing Fan • Adjustable Temperature • Integrated Wheels • Continuous Steam • Automatic Cord Shrink

Advanced Board Functions

The ironing board includes a built-in fan offering both suction and blowing functions. The blowing feature is ideal for delicate fabrics like silk, satin, and velvet, preventing scorching. The suction function holds garments securely to the board, making the ironing process faster and more comfortable.
