

# All-Terrain Mini Crawler Dumper with Rubber Tracks

This mini crawler dumper is designed for all-terrain transport, featuring a rubber track system. With a load capacity of 3 to 5 tons, it is suitable for agricultural and construction applications.

## ADDITIONAL IMAGES

## Overview

Versatile all-terrain transporter ideal for agricultural and construction material handling.

### All-Terrain Mini Crawler Dumper

This mini crawler dumper is a versatile and robust all-terrain transporter designed for demanding agricultural and construction applications. Featuring a durable rubber track system, it provides exceptional traction and stability on uneven, muddy, and icy surfaces where wheeled vehicles might fail. With a load capacity of up to 5 tons and a compact design, it is an ideal solution for efficient material handling in confined spaces and challenging environments.

## Performance

### Key Performance Metrics

**5 T**

Max Load Capacity

**45 °**

Climbing Angle

**3 Gears**

Forward Speeds

## Technical Specifications

Robust chassis design with high-capacity dumper bed and hydraulic lift.

Load Capacity Range	3 to 5 Tons
Engine Type	High-quality Diesel Engine
Transmission System	Multi-speed heavy-duty (3 forward + 1 reverse)
Unloading Method	Hydraulic lifting/tipping mechanism

## Chassis & Mobility

Heavy-duty rubber tracks ensure stability and traction on slopes up to 45 degrees.

Track Material	Reinforced Rubber
Terrain Compatibility	Muddy Ground, Icy Roads, Soft Ground, Slopes, Uneven Terrain

## Applications

Designed for maneuverability in orchards and tight farm spaces.

### Primary Applications

- Palm oil fruit harvesting
- Construction site material transport
- Agricultural crop hauling
- Landscaping projects
- Orchard and farm maintenance

## Features

Efficient hydraulic tipping system for quick unloading of gravel, soil, or fruit.

### Core Features

- Self-propelled crawler walking system
- Compact size for confined space maneuverability
- Customizable dimensions based on demand
- Easy operator controls and maintenance
- High-traction rubber tracks for surface protection
