

# Alloy Frame City Touring Bicycle

This city/tour bike features an alloy frame and Shimano M370 shifter. It is designed for comfortable and efficient riding in urban environments and on longer tours.

## Overview

### Designed for Versatility and Comfort

This 28-inch city and touring bicycle is engineered for both urban commuting and longer recreational rides. Built with a lightweight alloy frame and a reliable Suntour alloy fork, it offers a smooth and responsive ride quality. Equipped with premium components like Shimano gears and Tektro hydraulic disc brakes, this bike ensures safety, durability, and performance in various riding conditions.
