Product Overview

High-Efficiency Shelling Solution

This automated shelling machine line is designed for the efficient processing of various hard-shelled nuts. The system integrates multiple stages including lifting, grading, shelling, and shell separation to ensure optimal output. It is engineered for clean shelling, high kernel integrity, and ease of maintenance, making it an ideal choice for commercial nut processing facilities.

Processing Capabilities

Integrated Process Steps

- Material Lifting
- Grading
- Shelling
- Shell Separation

Compatible Materials

Almonds, Apricots, Hazelnuts

Service & Warranty
