

Aluminium Alloy Retractable Blade Cutter

This cutter features a durable aluminium alloy body and a robust metal chamber for secure blade storage. The retractable blade mechanism allows for adjustable cutting depths and safe storage when not in use.

Product Overview

Professional Aluminium Alloy Cutting Tool

This precision cutting tool is engineered with a durable aluminium alloy body and a robust metal chamber for enhanced safety and secure blade storage. Designed for versatility, it features a retractable blade mechanism that allows for adjustable cutting depths and safe storage when not in use. Ideal for both professional and DIY applications, this cutter ensures smooth and accurate performance across various materials.

Design & Construction

Body Material	Aluminium Alloy
Blade Chamber	Metal Chamber

Functional Features

Blade Mechanism

Retractable • Adjustable Depth

Safety Features

- Secure metal chamber storage
- Retractable blade for safe handling
- Robust housing for stable cutting

Applications

Recommended Use	Professional, DIY, Precision Cutting
