

Aluminium Alloy Retractable Utility Knife

This durable utility knife features a lightweight aluminium alloy body for enhanced strength. It is equipped with a retractable blade mechanism for safe and convenient use on various materials.

Product Overview

Durable Aluminium Alloy Utility Knife

This retractable utility knife is constructed with a lightweight aluminium alloy body, offering superior strength and natural corrosion resistance for demanding environments. Designed for versatility, it features an ergonomic grip to ensure comfort during extended use while cutting materials like cardboard, plastic, and paper. The tool includes a safe retractable mechanism and a quick-change blade system to maximize efficiency and safety on the job.

Key Features

Core Advantages

- Lightweight aluminium alloy body
- Corrosion-resistant construction
- Retractable blade mechanism
- Ergonomic handle design
- Quick and easy blade replacement

Technical Specifications

Blade Mechanism

Retractable • Quick-Change

Body Material

Aluminium Alloy

Applications

Suitable Materials

Cardboard, Paper, Plastic, General Purpose

Design & Ergonomics

Grip Type

Ergonomic comfort grip
