

Aluminium Cartridge Caulking Gun

This professional-grade caulking gun is designed for applying sealants and adhesives with precision. It features a durable aluminium barrel for enhanced strength and longevity.

Product Overview

Professional Aluminium Caulking Gun

This professional-grade caulking gun is engineered for precision application of sealants and adhesives. Constructed with a durable aluminium hull, handle, body, and thrust plate, it offers superior strength and longevity for demanding work environments. Designed for efficiency, the ergonomic trigger mechanism ensures smooth and consistent dispensing, making it an ideal tool for construction, automotive, and marine projects.

Construction & Materials

Included Components

- Aluminium Hull
- Aluminium Handle
- Nozzle
- Thrust Plate

Body Material	Aluminium
---------------	-----------

Handle Material	Aluminium
-----------------	-----------

Usage & Compatibility

Target Applications	Construction, Automotive, Marine
---------------------	----------------------------------

Cartridge Compatibility	Standard-size cartridges
-------------------------	--------------------------
