

Aluminum 5-Step Ladder with Tool Tray

This aluminum 5-step ladder is suitable for various indoor and outdoor tasks. It features five non-slip steps for secure footing and a work tray for tools.

Overview

Professional Aluminum 5-Step Ladder

This lightweight yet durable aluminum ladder is designed for safe and convenient use in both indoor and outdoor environments. It features five non-slip steps and a practical integrated work tray at the top to keep tools and materials within reach during home improvement or maintenance tasks. The ladder is finished with anodic oxidation for enhanced durability and features a foldable design for compact storage.
