

# Aluminum Instrument Enclosure

This aluminum enclosure is designed for housing electrical instruments, offering protection in complex electrical environments. It provides good Electro Magnetic Compatibility (EMC) and is suitable for various applications.

## ADDITIONAL IMAGES

## Product Overview

### Professional Aluminum Instrument Enclosure

This high-quality aluminum enclosure is engineered for housing sensitive electrical and electronic instruments. Constructed from durable AL T6063 aluminum, it offers robust protection against physical damage while the anodized, sandblasted finish provides a professional aesthetic. The design includes ribbed sides to assist with heat dissipation, ensuring the safe and reliable operation of your internal components.

## Physical Dimensions

Outer Width	155 mm
Outer Height	32 mm
Outer Depth	155 mm
Inner Dimensions (W x H x D)	135.5mm x 28mm x 155mm

## Material & Finish

### Available Colors

Golden • Customizable

Material	AL T6063 Aluminum
Surface Treatment	Anodized, Sandblasted

## Technical Specifications

### Machining Services

- Lathe
- Milling
- CNC Machining
- Polishing
- Punching
- Drilling
- Taping

### Included Components

- Enclosure body
- Front panel
- Rear panel
- Screws

### Panel Thickness

1.5 mm
