

Aluminum Oxide Coated Abrasive Roll

This coated abrasive roll features special aluminum oxide and a closed coat. Its X-cloth backing provides high strength, low stretch, and resistance to water and oil.

Product Overview

Professional Grade Abrasive Roll

This high-performance coated abrasive roll is designed for demanding industrial sanding and finishing applications. Featuring a durable X-weight cotton backing and aluminum oxide grain, it offers excellent flexibility and longevity for various surface preparation tasks. The material is engineered for consistent performance across a wide range of grit sizes, making it a versatile choice for professional workshops and manufacturing environments.

Technical Specifications

Product Code	TA133X
Abrasive Grain	Aluminum Oxide (A)
Backing Material	X-wt Cotton
Bonding	Resin/Resin (R/R)
