

# Aluminum Oxide Coated Abrasive Roll

This coated abrasive roll features special aluminum oxide and a closed coat. It has an E-paper backing and antistatic properties.

## Overview

### High-Performance Coated Abrasive

This aluminum oxide coated abrasive roll is engineered for demanding sanding and finishing applications. Featuring a durable E-weight paper backing and precision-graded abrasive grain, it delivers consistent material removal on wood, metal, and composites. Designed to resist heat buildup and loading, this abrasive ensures long-lasting performance and a superior finish for both manual and machine operations.

## Technical Specifications

Product Code	PA133E
Backing Material	E-weight paper
Abrasive Grain	Aluminum Oxide (A)
Bonding	Resin over Resin (R/R)
Available Forms	Roll, Belt
Grit Range	P40 - P1000

## Dimensions

### Available Widths

- 1400mm
- 1650mm
