

Aluminum Oxide Sanding Belts

These aluminum oxide sanding belts are designed for sanding wood and automatic machines. The highly resistant product is suitable for use with portable or non-portable belt sanders.

Product Overview

High-Performance Sanding Solutions

These aluminum oxide sanding belts are engineered for durability and consistent performance in demanding sanding applications. Designed to be highly resistant, these belts are suitable for use with both portable and stationary belt sanders. They provide efficient material removal and reliable results, making them an ideal choice for woodworking and automated machine operations.

Technical Specifications

Machine Compatibility

- Portable belt sanders
- Stationary belt sanders
- Automatic sanding machines

Material Specifications

115.00, 115.01

Primary Application

Wood sanding and finishing

Performance Features

Durability

Highly Resistant • Industrial Grade
