

# Aluminum Platform Hand Truck

This platform hand truck is designed for material handling applications. Its lightweight aluminum frame ensures maneuverability and can be folded for storage.

## Overview

### Versatile Material Handling Solution

This platform hand truck is engineered for durability and ease of use in professional environments such as warehouses, workshops, and distribution centers. Constructed with a lightweight yet sturdy aluminum frame, it balances high load-bearing capacity with exceptional maneuverability. The integrated folding handle design ensures compact storage and effortless transport when not in use.
