

American Round Head Hammer with Double Plastic Handle

This American-style round head hammer is equipped with a durable double plastic handle for enhanced grip. Its round head design makes it suitable for metalworking, automotive, and construction applications.

Product Overview

American-Style Round Head Hammer

This American-style round head hammer is designed for versatility and durability in professional environments. Featuring a specialized double plastic handle, it offers superior shock absorption to reduce user fatigue during extended use. The balanced head design makes it an ideal tool for metalworking, automotive repairs, and general construction applications.
