

Angle Grinder

This high-performance angle grinder is designed for cutting, grinding, and polishing various materials. It features a robust motor for demanding applications and an ergonomic design for comfortable handling.

Overview

High-Performance Angle Grinder

This high-performance angle grinder is engineered for versatile applications including cutting, grinding, and polishing across various materials. Designed with a robust motor and durable construction, it ensures reliability during demanding tasks in metalworking, construction, and DIY projects. The ergonomic design promotes comfortable handling, while integrated safety features like a wheel guard and spindle lock facilitate secure operation and efficient wheel changes.

Technical Specifications

Performance Metrics

11000 RPM

No-load Speed

125 mm

Wheel Diameter

| | |
|----------------|--------|
| Power Input | 850 W |
| Spindle Thread | M14 |
| Weight | 2.1 kg |

Features

Suitable Applications

- Metalworking
- Construction
- DIY Projects
- Cutting
- Grinding
- Polishing
