Product Overview

Professional Dust Control Solution

This 5-inch angle grinder dust shroud is engineered to significantly reduce airborne particles during grinding and cutting applications. By attaching directly to your angle grinder and connecting to a standard vacuum cleaner, it enables a cleaner, safer, and more efficient workspace. The durable construction and adjustable clamp design ensure compatibility with most standard 5-inch angle grinders, making it an essential accessory for construction, renovation, and metalworking tasks.

Technical Specifications

Compatible Grinder Size	5 inches
Material	Plastic
Model Number	MY-A8
Country of Origin	China

Key Features

Core Features

- Effective dust containment for grinding and cutting
- Vacuum port for easy dust collection system connection
- Integrated brush ring for enhanced particle capture
- Adjustable clamp for secure fitment

Ideal Applications	Construction, Renovation, Metalworking, Dust-free Polishing
