Product Overview

Professional Dust Management Solution

This angle grinder dust shroud is engineered to provide a cleaner, safer work environment by effectively capturing dust and debris during grinding, sanding, or cutting applications. Designed for versatility, it features a robust brush ring for superior dust containment and a dedicated vacuum port for seamless connection to dust extraction systems. Built from durable materials, this accessory is compatible with most standard 7-inch and 9-inch angle grinders, making it an essential addition for demanding construction and renovation tasks.

Technical Specifications

Model Number	MY-A9
Compatible Grinder Sizes	7-inch, 9-inch
Material	Plastic
Place of Origin	China

Features

Key Capabilities

- Integrated brush ring for enhanced dust containment
- Vacuum port for efficient dust extraction
- Includes adapter rings for broad grinder compatibility
- Includes installation wrench
