

Angle Grinder for Cutting and Polishing

This angle grinder is designed for cutting, grinding, and polishing various materials. It features a powerful motor, ergonomic design, and durable construction for extended use.

Product Overview

High-Performance Angle Grinder

This powerful angle grinder is engineered for heavy-duty grinding and cutting tasks on a variety of surfaces, including metal and stone. Equipped with a high-wattage motor and a convenient rear switch, it provides the reliability needed for demanding professional applications. The versatile design supports groove cutting and precision work when paired with appropriate diamond cutting blades.

Technical Specifications

Rated Power

3200 W

Power Output

Power Supply

220V~ / 50Hz

Rated Speed

6000 R/M

Compatible Disc Diameters

180mm, 230mm

Features

Primary Applications

- Metal grinding
- Groove cutting
- Stone material cutting

Design Highlights

Rear Switch • High Power Motor
