

Angle Grinder for Metalworking

This angle grinder is designed for cutting, grinding, and polishing various materials. It features a robust motor for efficient performance and an ergonomic handle for comfortable grip.

Overview

Professional Performance

This professional angle grinder is engineered for demanding tasks including cutting, grinding, and polishing across a variety of materials. It features a robust, high-performance motor designed for efficiency and longevity in industrial environments. With an emphasis on user experience, the tool includes an ergonomic handle for a secure, comfortable grip and an integrated safety guard for enhanced protection during operation.

Key Features

Design Highlights

- Robust high-efficiency motor
- Ergonomic handle design
- Integrated safety guard

Ideal Applications

Metalworking, Construction, DIY Projects

Performance

Primary Functions

Cutting • Grinding • Polishing
