

Animal Handling and Restraint Chain with Clip

This durable chain is designed for animal handling and restraint. Constructed from high-quality metal, it features interconnected links providing strength and flexibility, along with a secure clip for easy attachment and detachment.

Product Overview

Professional Animal Handling Chains

This durable animal handling and restraint chain is designed for secure control and safety in agricultural and veterinary settings. Constructed from high-quality metal, the chain features interconnected links that provide both high tensile strength and necessary flexibility. Each unit is equipped with a reliable, easy-to-use clip mechanism, making it an essential tool for effective animal management.

Key Features

Durable Metal Construction, Secure Clip Attachment, Flexible Link Design, Multiple Size Options
