Overview

Professional Eye Protection

These safety glasses are engineered to meet rigorous international safety standards, including ANSI Z87.1-2020 and CE EN 166. Designed for industrial, construction, and laboratory environments, they provide reliable impact protection against flying particles, dust, and debris. The lightweight, frameless design ensures comfort during extended wear while maintaining clear, unobstructed vision.

Standards & Compliance

Safety Standards	ANSI Z87.1-2020, CE EN 166
------------------	----------------------------

Design & Materials

Lens Material	Polycarbonate (PC)
Lens Color	Clear
Frame Type	Frameless
Frame Color	Clear

Features

Key Features

- Anti-scratch coating
- Wide side lens protection
- Lightweight construction

Adjustable Arm Length	No
-----------------------	----

Padded Nose Piece	No
-------------------	----

Storage & Care

Storage Conditions

Store in a cool, dry, ventilated and secure place. Keep away from corrosive substances, oil, or flammable items.
