Product Overview

Professional Eye Protection

These safety goggles are engineered to provide reliable protection against medium energy particle impacts, dust, and liquid splashes. Featuring a flexible PVC frame and high-quality polycarbonate lens, they offer a secure, adjustable fit suitable for industrial, laboratory, and construction environments. The design includes indirect ventilation with adjustable caps to balance airflow and safety, ensuring comfort during extended wear.

Standards & Compliance

Certifications

ANSI Z87.1-2020, CE EN 166:2001, Optical Class 1

Technical Specifications

Impact Resistance

120 m/s

Max Particle Speed

Construction Materials

Component	Material
Frame	Flexible PVC
Lens	Polycarbonate

Key Features

- Anti-fog lens coating
- Indirect ventilation system
- Adjustable ventilation caps
- Adjustable head strap
- Clear lens for optimal visibility

Color

Clear lens, Green frame

Usage & Safety

Protection Against

Medium energy shocks • Dust • Liquid projections • Chemical spray • Fused metal projections
