Product Overview

API 5CT Tubing Pup Joint

These API 5CT tubing pup joints are essential components used in oil and gas extraction to precisely adjust the length of tubing or casing strings. Designed to meet exact well depth requirements, they provide reliable connectivity within piping systems. Constructed from high-quality steel and finished for durability, these joints are engineered to withstand the demanding conditions of downhole operations.

Technical Specifications

Material Grades

- J55
- K55
- N80(1)
- N80(Q)
- L80(1)
- L80(13Cr)
- T95
- P110

Size Range

1.9" to 13-3/8"

Available Thread Types

EU, NU, LC, SC, BC
