

# Articulated City Bus for Urban Transportation

This articulated city bus is designed for efficient urban transportation. It features a robust chassis, powerful engine, and spacious interior for reliable performance and increased passenger capacity.

## Overview

### High-Capacity Urban Transit Solution

The KLQ6181GQ is a high-capacity articulated city bus engineered specifically for efficient urban transportation. Its robust chassis and powerful engine ensure reliable performance under heavy passenger loads, while the articulated design maintains essential maneuverability in dense city traffic. Designed for modern transit needs, it features a spacious interior, comfortable seating, and multiple entry/exit points to facilitate rapid boarding and alighting.

## Key Features

Model Number	KLQ6181GQ
Design Type	Articulated

## Compliance & Safety

**Safety Compliance**  
Advanced Safety Systems • Emission Standard Compliant

## Operational Highlights

- Operational Benefits**
- High passenger capacity
  - Enhanced city maneuverability
  - Rapid boarding and alighting
  - Environmentally responsible
