

Assorted Bolts, Nuts, and Screws for Industrial Use

This collection includes a variety of bolts, nuts, and screws suitable for industrial and mechanical applications. The fasteners are made from steel and alloy options with coatings for corrosion resistance.

Product Overview

Industrial Fastener Solutions

This comprehensive range of industrial fasteners includes bolts, nuts, and screws designed for demanding applications across construction, automotive, and instrument assembly. Manufactured to meet rigorous international standards, these components are available in high-strength carbon and alloy steel. With a variety of protective finishes and grades, these fasteners ensure reliability and durability for critical mechanical connections.

Technical Standards

Standards Compliance

Standard Type	Specifications
DIN	931, 933, 960, 961, 934, 125, 27, 6914, 6915, 6916, 7990
ISO	4014, 4017
ASTM	A325, A490, A563, F436, A193 B7, A194 2H
General Standards	ANSI, ASME, BS, AS, JIS

Material & Finish

Surface Finishes

Plain • Black Oxidized • Zinc Plated (White/Yellow/Blue) • Hot Dip Galvanized • Dacromet

Material

Carbon Steel, Alloy Steel

Performance & Grades

Available Grades

8.8, 10.9, 12.9, Gr 5, Gr 8

Logistics & Supply

Supply Ability

800 tons

Monthly Supply Capacity

Packaging

25kg per carton, 36 cartons per pallet

Delivery Time

7-30 days

Applications

Primary Applications

- Building Construction
- Instrument Assembly
- Automotive Manufacturing
- Furniture Production
