

ASTM Gate Valve

Gate valves control the flow of liquids and gases in pipelines. These valves are manufactured to ASTM standards and come in sizes from 2 to 8 inches.

Product Overview

Industrial ASTM Gate Valve

This industrial-grade gate valve is manufactured in strict accordance with ASTM standards to ensure reliability and performance in demanding applications. Constructed from durable materials including stainless steel, aluminum bronze, and cast bronze, it is engineered to meet rigorous pressure and design specifications. Designed for versatility, this valve is available in a wide range of sizes from 1/2" to 8" to suit diverse piping infrastructure requirements.

Compliance & Standards

Standards & Certifications

ASTM B16.34, ANSI B16.34, MSS-SP-70, API 600, API 598, ANSI B16.10

Material Specifications

Available Materials

Stainless Steel • Aluminum Bronze • Cast Bronze
