Product Overview

Design Meets Efficiency

This ultra-slim wireless charger combines a charming astronaut-themed aesthetic with reliable charging performance. Engineered for safety and convenience, it features built-in circuit protection against over-charging and overheating while maintaining a sleek, compact profile. Perfect for desks or nightstands, it provides a stable and anti-slip surface for your mobile devices.

Performance

Charging Capabilities

10 W

Fast Charge Power

7.5 W

Standard Charge Power

75 %

Charging Efficiency

6 mm

Max Charging Distance

Technical Specifications

Power Input & Output

Parameter	Value
Input	5V / 2A
Output	5V / 1A

Compliance & Safety

Safety Features

- Over-charging protection
- Over-temperature protection
- Energy saving circuit design

Certifications

CE, RoHS, FCC
