Product Overview

Dual-Function Atomization System

This versatile device combines efficient air humidification with advanced disinfection capabilities. Designed for ease of use, it features touch-sensor controls for both spray and sterilization modes. With a 400mL capacity and rapid electrolysis, it provides a reliable solution for maintaining air quality and sanitizing surfaces.

Technical Specifications

Input Voltage	5 V
Input Current	1 A
Battery Capacity	500 mA
Charging Time	0.6-1 Hour
Water Tank Capacity	400 mL
Material	ABS

Performance Metrics

Sterilization Rate

99.99 %

Sterilization Efficiency

200 mg/L

Chlorine Concentration

Spray Modes	Continuous, Interval
-------------	----------------------

Operation Instructions

Electrolysis Settings

Setting	Duration	Salt Required
First Gear	5 Minutes	0.5g
Second Gear	10 Minutes	1g

System Indicators

- 3 LED lights (Red, Blue, Green)
- Buzzer sound reminder
