

ATV Exhaust Pipe

This exhaust pipe is designed for ATV models to optimize exhaust flow. It is constructed from steel and includes mounting brackets for straightforward installation.

Product Overview

High-Performance ATV Exhaust System

This high-performance exhaust pipe is precision-engineered for the ATV06-1 model, focusing on durability and engine efficiency. Constructed from robust steel, it offers exceptional longevity and resistance to corrosion even under demanding riding conditions. The system features a tuned resonator designed to optimize exhaust flow, reduce backpressure, and ultimately boost engine horsepower and torque.

Technical Specifications

Compatible Model	ATV06-1
Material	Durable Steel
Key Features	Corrosion Resistant, Tuned Resonator, Easy Installation, High-Flow Design

Performance Benefits

Performance Gains

1 Increased

Horsepower Output

1 Increased

Torque Output

1 Reduced

Exhaust Backpressure

Installation & Compatibility

Included Hardware

- Mounting brackets included
