

ATV/UTV 2000lb Electric Winch

This electric winch is designed for ATV/UTV applications. It features a steel cable, hook, and remote control for vehicle recovery and other pulling tasks.

Overview

Compact Power for Recovery

This 2000lb electric winch is engineered for reliable performance in ATV and UTV recovery applications. Featuring a permanent magnet motor and a durable steel cable, it provides the essential pulling power needed for off-road tasks. Its compact dimensions ensure straightforward installation on a wide range of vehicle frames.
