

Audio and Video Cable

This cable is designed for transmitting both audio and video signals. It provides connectivity between various electronic devices.

Product Overview

High-Tensile Industrial Wire

This high-tensile steel wire is engineered for durability and reliability in demanding environments. Tightly coiled for efficient storage and transportation, it is an ideal solution for construction projects, fencing, and various industrial applications. Its robust construction ensures consistent performance and ease of handling on-site.

Physical Properties

Material	High-tensile steel
Finish	Metallic gray
Packaging	Coiled bundle

Applications

Recommended Applications	Construction, Fencing, Industrial Use
