

Audio Enhancement Subwoofer

This enclosure subwoofer is designed to enhance audio performance. It features a black hexagonal mesh grille with a gold-colored circular accent in the center, adding to its aesthetic appeal.

Product Overview

High-Performance Compact Subwoofer

This car seat enclosure subwoofer is engineered to deliver powerful, high-fidelity audio in a space-saving design. Featuring a durable die-cast aluminum alloy construction and a specialized wave fiber cone, it ensures robust performance and longevity. With a built-in amplifier and versatile tuning options, it provides a seamless audio upgrade for automotive sound systems.

Audio Performance

Key Performance Metrics

150 W

RMS Power

400 W

Max Power

86 dB

Sensitivity

Frequency Response	20Hz - 200Hz
Impedance	2 Ω
THD	0.08 %

Technical Specifications

Woofer Dimensions	180 x 230 mm (7 x 9 inches)
Materials	Die-cast Aluminum Alloy, Wave Fiber, Paper, Rubber Edge, Ferrite (Y35) Magnet
Voice Coil	50 mm
Fuse Rating	25 A

Connectivity & Tuning

Input Sensitivity

Input Type	Range
High-Level	300mV - 10V
Low-Level	100mV - 3.5V

Adjustments

- Low Pass Filter: 50Hz - 150Hz
- Low Volume Increase: 0dB to +12dB
- Phase Adjustment: 0° to 180°

Dimensions

Physical Size

290 x 245 x 76.5 mm
