

Audio & Lighting System

This system delivers high-fidelity sound and immersive lighting effects. It is suitable for concerts, theaters, and other professional venues.

Product Overview

Professional Component Overview

This high-performance carburetor assembly is engineered for small engine applications, including lawnmowers, generators, and similar machinery. Featuring a durable metallic body, it provides precise control over the air-fuel mixture to ensure optimal engine efficiency and reliability. The assembly includes an integrated throttle lever and all necessary ports for seamless installation and operational regulation.

Technical Details

Compatible Equipment

- Lawnmowers
- Generators
- Small Utility Engines

Operational Components

Throttle Lever Included • Integrated Fuel Ports • Air Intake Fittings

Material Composition

Metallic Alloy, Corrosion Resistant
