Product Overview

Professional Auger Drill Bit

This auger drill bit is engineered for high-performance woodworking applications, featuring a durable 45# steel construction. The head is precision heat-treated to ensure consistent drilling performance and longevity. Designed with a four-flute geometry, it facilitates efficient chip removal for cleaner, faster holes in various wood types.

Technical Specifications

Dimensions	10 x 165 mm
Material	45# Steel
Hardness	45 HRC

Design & Features

Key Features

- Heat treated head
- Laser logo printing
- Efficient chip removal

Shank Type	Hex Shank
Flute Count	4
Finishing	Black Painted, Polished
