

Australian Piggyback Power Cord

This Australian power cord features a standard Australian plug with three pins. The piggyback design allows for plugging another device into the back of the plug.

Product Overview

Australian Piggyback Power Cord

This Australian 3-prong piggyback AC power cord provides a versatile solution for power distribution in Australia and New Zealand. Designed with a convenient piggyback outlet on the plug, it allows for daisy-chaining devices to optimize limited power outlet availability. The assembly is fully compliant with AS/NZS 3112 standards and features a durable molded IEC C13 connector.
