Overview

Professional Auto-Darkening Welding Filter

The JX-G05 auto-darkening welding filter is engineered to provide superior eye protection for professional welding applications. Featuring dual high-sensitivity sensors and a rapid response time, it ensures consistent safety against harmful radiation and sparks. Designed for versatility, this filter includes adjustable sensitivity, delay settings, and a dedicated grind function, making it a reliable choice for demanding work environments.

Technical Specifications

Viewing Area	92 x 42 mm
Switch Time	0.5 ms
Light Shade	DIN 4
Darkest Shade	DIN 13
Shade Range	DIN 4/9-13
